I also have experience working with Node, VueJS, Gatsby, Typescript and MongoDB. Take a look at my work or get in touch! hrishikeshrai.netlify.app/

Experience

SDE
Glance
Jan 2022 - Present (1 year 5 months)

SDE - 1
Park+
Dec 2020 - Dec 2021 (1 year 1 month)
Did SEO optimisation for some of our product, built around 200+ pages resulting from 7K impression per month to 28K in first 28 days (480K impression currently(2022).
Optimized performance of our website, improved score from 18 to 55 avg. (hitting 70+ in some of our pages) which improved our search engine rankings.
Built our customer support page to resolve query of our customers resulting in +50% more customer satisfaction in quick & maintainable fashion.
Built landing page of Park+, and many other products like Car Wash, Car check-up, Discover (our customer engagement platform), Challan, Sell Car in integration with Spinny & Car Dekho.
Built FASTag product along with my colleague in just 1 and half day, which resulted generating 1cr revenue within first month.
